

2ND ANNUAL SUSTAINABLE ALLIANCE FESTIVAL

Would you like to learn more about saving energy, ways to recycle, how our water system works? Join us for the 2nd Annual Sustainable Alliance Festival where you can attend talks, workshops, art, films, demonstrations and local tours celebrating and inspiring our sustainable community.

Most events are free and open to all

*(with the exception of an entry donation requested at the Green Alliance Fundraiser on Oct. 1, and a fee for the Legislative Breakfast on Oct. 2. Also, "Sustainability in the University Classroom" is intended for UMU faculty.)
Please check individual events to see if reservations are required*

and

University of Mount Union

Other NE Ohio Regional Events:

McKinley Presidential Library in Canton until November 6:

Green Revolution: an exhibit made from recycled and repurposed materials at the

Cleveland Museum of Natural History :

PNC SmartHome Cleveland - June 6, 2011 through September 30, 2011, Location: Greenspace next to Steggie. Tour a home that could represent the future of energy-efficient housing! It is presented in conjunction with the exhibition "Climate Change,"

"Climate Change" - July 23 through Dec. 31, Location: Cleveland Museum of Natural History, Kahn Hall. Addresses one of the most complex and urgent scientific and social issues of the 21st century: global climate change. Visitors of all ages will learn the science of climate change and discover the implications of unchecked climate change for future generations. Discover how individual, collective, communal, and governmental actions in using energy more efficiently, in combination with pursuing promising new energy alternatives, can make a meaningful impact in reducing global warming.

CoolGlobes: Hot Ideas for a Cooler Planet - June 4, 2011 through September 11, 2011, Location: Greenspace on Wade Oval. A public art exhibition designed to raise awareness of solutions to climate change. View 18 globes displaying an array of solutions to climate change, all with one clear message: we can solve this.
